

Khalsa Montessori School

7/10/2020

Hello Khalsa Montessori Elementary Summer School families,

A quick update regarding our Summer Orientation program. The Maricopa County Public Health Department announced in a Webinar yesterday afternoon that all students 6 yrs and up will be required to wear masks at school both inside and outside. There are exceptions for strenuous physical activities outside and children with medical conditions that would compromise their health to wear a mask. This is a new requirement from our local public health authority.

All elementary children will need to wear masks beginning Monday. All staff will wear masks as well. I have updated our KMS Summer Operational Plan 2020 to reflect these changes. I had always intended that this document be a "living document" so that we would respond appropriately when changes occur.

Khalsa Montessori School continues to seek a path forward during this pandemic that balances the many conflicting requirements of our community and the larger community.

Sincerely,

Karen Paxton
